

At the Annual Keeping the Faith Breast Cancer Survivors' Luncheon, we celebrate the lives of those whose legacy inspires us. Shelly Walters is the daughter of **Brynne Marsh** and a long-time supporter of Revivals. She tells us that after Brynne went to Heaven, she found journals containing her thoughts while she survived breast cancer and underwent treatment. For the past few years, Shelly has shared words of inspiration and encouragement from Brynne.

Also, during our Legacy Tribute, we celebrate the life of **Wendy Tustin** of Fernley, Nevada. In 2015, her desire was to attend the luncheon for the first time and dance the electric slide. God called her home before she could do that, so we dance in her honor. Those that cannot dance, move to the groove in their seats.

BRYNNE MARSH'S NOTE ENTRY FOR HEALING

"This entry was more notes than an entire reading as she usually would write. All these Notes were very important to her and she would practice daily." ~Shelly Walters, 2017

Clear mind of negatives – so important
Habit of looking at the negative – "Start looking at the positive"
FIND SOMETHING GOOD in Everything – no matter how minute it may seem.

SPIRITUALITY

Discipline self not to think of the bad-always replace any bad thought with a good one
Thoughts – become real!!!!

Writing – I give thanks every cell in my body is in right and perfect health NOW!!!

Release and let go all your resistance in releasing and letting go!

Practice this over and over
Create your Reality

Project and program right and perfect health in everything!!

Chemo – turn into liquid healing light – (Sunshine)

We must know that through Trust there will always be the right and perfect solution to all things!!!
